

# ENTERPRISE MOBILITY

FOR FACILITIES AND INFRASTRUCTURE MANAGEMENT

**Don't let your facilities information get away from you. Keep it up to-date and accurate with MicroView FM™.**

**Save time collecting facility data and managing activities.**

Our MicroView FM™ software for handheld computers (PDAs) lets you collect, record and update your facility data on the spot. It's an indispensable time saver, allowing data collection on-site at corporate facilities.

**Full integration of PDA data collection and activity management for your facility.**

MicroView FM™ mobile data and activity management tools are fully integrated with ARCHIBUS/FM®, the world's leading facilities management software, and provide companies with the reach and flexibility to effectively manage their facilities.

**MicroView FM™, mobile data and activity management tools from Meridex, help reduce your facilities and infrastructure management costs.**

Meridex provides top mobile facility data collection and management tools for corporate facility managers. Whether you need more efficient processes for inventory, maintenance and inspection activities, or quick updates during critical operations like employee moves or large-scale reorganizations, mobile facility management tools from Meridex give you up-to-date informa-
